## 2019 CHEMICAL USAGE FOR BARLEY, COTTON, SORGHUM, AND WHEAT

State-level estimates for 2019 chemical usage for barley, cotton, sorghum, durum wheat, spring wheat, and winter wheat are now available, according to the USDA's National Agricultural Statistics Service. The 2019 Agricultural Chemical Use Survey of barley, cotton, sorghum, and wheat producers collected data about fertilizer and pesticide use, as well as pest management practices. The estimates can be accessed using the QuickStats online database, found here: [http://www.nass.usda.gov/Quick\\_Stats/](http://www.nass.usda.gov/Quick_Stats/)

A pre-defined query of selected commodities can be found here:

[https://www.nass.usda.gov/Data\\_and\\_Statistics/Pre-Defined\\_Queries/2019\\_Barley\\_Cotton\\_Sorghum\\_Wheat/index.php](https://www.nass.usda.gov/Data_and_Statistics/Pre-Defined_Queries/2019_Barley_Cotton_Sorghum_Wheat/index.php)
